Profile

I am seeking a position as a Full Stack Web Developer. I have experience with front end design and back end logic and integration. I use all the modern tools to bring the two together. I have professional experience in I.T. and recently completed a Full Stack Web Development Bootcamp to update my skills to match modern trends in Software Development.

Technical Skills

Experienced in HTML5, CSS, Javascript, JQuery, Bootstrap, Semantic-UI, Node.js, MySQL, MongoDB, React.js, and Drupal content management framework. Additionally proficient in the use of Adobe Creative Suite and Final Cut Pro.

Experience

SMART HOME EXPERT, BEST BUY INC; RICHFIELD, MN – 2017-PRESENT

Guide clients in integrating smart home technology into their lives. Expertise on the requirements of the network necessary to support security systems and home automation devices.

ASSISTANT DIRECTOR MOTION TV/FILM PRODUCTION, FREELANCE; MINNEAPOLIS, MN – 2006-2017

Comprehensive understanding of the media production process. Experienced Producer, Assistant Director, and Unit Production Manager. Background in Art Direction. Acquired transferable project management skills. See www.robinbertuccelli.com for some examples of the projects I have worked on.

SYSTEMS INTEGRATOR/TEAM LEADER, WHOLE FOODS MARKET, INC; MINNEAPOLIS, MN – 1998-2006

Coordinated the implementation of I.T. systems at the store level for the Twin Cities area. Responsible for maintaining, upgrading and integrating network, database servers, workstations, laptops, ordering systems, POS system, user training and support. Continuous development of web based operational support systems. Responsible for the team's functionality and budget. Received company All Star Award in 2005 in recognition of my contribution to the company.

Education
